

The Village of Cache Creek is creating a list of local contractors who would like to be considered for any work that may become available in the Village. If you would like to be included on this list please forward your company name, contact information, what type of equipment you have available, and whether or not you would like to be included on an emergency response list (in case of floods, fires etc where heavy equipment may be necessary) before December 31, 2020 to Box 7, Cache Creek or admin@cachecreek.info.

All work will be allocated and paid as per Village of Cache Creek Policy No. G-2: Distribution of Equipment Contracts. For details on this policy please contact the Village Office.
